

Cat6A Shielded Toolless RJ45 Plug >

The CAT6A Shielded Toolless RJ45 Plug is engineered for convenience, speed, and high-performance data transmission. With its easy assembly design—no crimping tool required—this plug is ideal for installers who demand fast deployment in structured cabling systems, data centers, and industrial networks.

SPECIFICATIONS

Particulars	Description
Product	CAT6A Shielded Toolless RJ45 Plug
Brand	NEXA
Material	Zinc Alloy Housing with Gold-Plated Contacts
Type	Toolless, 8P8C, Shielded
Compatibility	Cat6A / Cat6 / Cat5e (Solid and Stranded Cable)
Design	Toolless Snap-Lock Closure, Reusable Design
Wire Gauge	22-26 AWG
Standard	International Organization for Standardization/IEC11801, TIA/EIA-568B.2-1, EN50173
Used	Data Centers, Patch Panels, Networking Installations, CCTV Systems
Max. Frequency	500 MHz
Shielding	Fully Shielded Housing – EMI/RFI Protection
Connector	3-Prong, 50 Micron Gold-Plated Contacts
Features	No Crimping Tool Required, Reusable, Quick Termination, Superior Crosstalk Performance
Certification	CE, RoHS
