

# Cat6A Shielded RJ-45 Plug Pass Through >

Our Cat6A Shielded RJ-45 Pass Through Plug is designed for maximum performance in high-speed network environments. It is ideal for data centers, industrial networks, and PoE applications. The pass-through design simplifies installation and ensures precise terminations.

## SPECIFICATIONS

Particulars	Description
Product	Cat6A Shielded RJ-45 Plug Pass Through
Brand	NEXA
Material	Shielded Zinc Alloy with Gold-Plated Contacts
Type	Pass Through, 8P8C, Shielded
Compatibility	Cat6A / Cat6 / Cat5e Cables (Solid and Stranded)
Gold plated	50u"(available)
Wire Gauge	23-26 AWG
Standard	International Organization for Standardization/IEC11801, TIA/EIA-568B.2-1, EN50173
Used	Data Centers, Patch Panels, Networking Installations, CCTV Systems
Max. Frequency	500 MHz
Shielding	Fully Shielded (F/UTP, S/FTP compatible)
Connector	3-Prong, 50 Micron Gold-Plated Contacts
Features	Simplified Pass-Through Design, Improved Crosstalk Protection, High Data Transfer Rates, Tool-Friendly
Certification	CE, RoHS
