

FTP Toolless Modular Plug Screw Cap >

The FTP Toolless Modular Plug Screw Cap is a high-quality networking accessory designed for fast, secure, and hassle-free cable terminations. This tool-free modular plug allows you to connect FTP (Foiled Twisted Pair) network cables without the need for crimping tools, making installations quicker and more convenient. Its integrated screw cap ensures a tight, reliable connection and enhanced shielding against electromagnetic interference (EMI), maintaining optimal signal quality.

SPECIFICATIONS

Particulars	Description
Product	RJ45 tool-less shielded modular plug
Brand	NEXA
Material	PC UL94V-0
Port	RJ45 available
Color	White, Red, Yellow, Blue
Gold Plated	50u"
Tensorstrength	20kg min
Durability	200 fit cycles
Category	Category6
Electric	UL Appli: Maximum AC 250V, 2A
	Dielectric constant: 500V AC
	Insulation resistance: 250MΩ
	Terminal: Resistance 20m max.
Standard	International Organization for Standardization/IEC11801, TIA/EIA-568B.2-1, EN50173
Used	Data center, workarea, management room, equipment room, etc.
Certification	CE, RoHS
